

SILVAN PLR ROTARY HOE

Reverse direction drive and rotor for a finer finish

Front debris guard to minimise noise and dust

Rear strengthening bar

Adjustable full length skids allows operation on hard floor

Cushioned tail gate to reduce noise

Increased rotor speed for a finer till

Following the introduction of new animal welfare regulations relating to the poultry industry, Silvan have specifically developed the Silvan Poultry Litter Rejuvenator (PLR) Rotary Hoe.

This machine is designed to till the floor material in order to break up the large clods and aerate the material, improving animal health and increasing productivity.

SILVAN HAS CUSTOMISED THE PLR ROTARY HOE WITH FEATURES SUCH AS:

- The reverse rotation rotor with increased speed for an effective till
- Front and rear debris guards to minimise noise and dust
- Adjustable full length skids for accurate height control

MODEL	TRACTOR RANGE	WORKING WIDTH	TOTAL WIDTH	WEIGHT	ROTOR SPEED	NUMBER OF BLADES	CAT	LIST PRICE (EXCL. GST)	RRP (INC. GST)
B40F-145RR	22 - 40 HP	1420mm	1620mm	240kg	306 rpm	28	1 / II	\$8,330	\$9,163
B40F-165RR	30 - 40 HP	1620mm	1820mm	260kg	306 rpm	32	1 / II	\$8,520	\$9,372
